ESSENTIAL INFORMATION
February 2019

Prepared by the Institute of Health Law (University of Neuchâtel, Switzerland) Staff

NAVIGATING THE DATA

There are two ways to navigate the data by clicking the Filter tab or the Explore tab — for each option, the data can be visualized in a map and table format or in jurisdiction profiles.

Filter
The dataset homepage will default to the Filter tab. Here, users may answer a series of questions to learn more about the characteristics of the laws. Answering more than one question will show all the jurisdictions that meet the combined criteria. Criteria selected will be listed above the questions, and can be removed by clicking the white X or by clicking “Reset” above the questions.

Explore
Users can access Explore by clicking the Explore tab in the bar above the questions. Using Explore, users will see the answers to one question across all jurisdictions.

The primary questions in this dataset are:

1. Is there a law regulating the surveillance of human communicable diseases?
2. Is there a disease notification system?
3. Does the law regulate communication of information on the occurrence of diseases from sub-national to the national level?
4. Is there a law regulating the designation of points of entry (PoE)?
5. Are PoE for the purpose of the IHR(2005) designated in a law?
6. Are general border crossing points designated in a law?
7. Are designated airport PoE capacities regulated?
8. Is the response to outbreaks of communicable diseases at airports regulated?
9. Does the law mandate competent authorities at designated airports to operate surveillance?
10. Does the law mandate competent authorities at designated airports to have response capacities?
11. Is there a law regulating vector surveillance at airports?
12. Is there a law regulating the process of designation of an IHR National Focal Point?
13. Is there a law designating an entity as an IHR National Focal Point?
14. Does the law describe the mandate of the National Focal Point?
15. Which entities can the National Focal Point collect information from?
16. Which entities can the National Focal Point provide information to?
17. Are there provisions on the communication of personal data to foreign authorities?

DISPLAYING THE RESULTS

There are two display modes once criteria have been selected by using either the Filter or Explore tab — Map display mode and Profiles display mode.

Map Display
LawAtlas.org dataset homepages default to the map display mode. When querying the data using the Filter tab, all jurisdictions that meet the criteria selected will display in one tone of yellow. Those jurisdictions that do not meet the criteria selected will be colored gray. When querying the data using the Explore tab, the map will illuminate with colors from yellow to red that are associated with the various answer choices (the color-coding is defined by the key to the left of the map).

Below the map, a table will appear. Using the Filter or Explore tab to navigate the questions will change the display:

- Using the Filter tab, you can select an unlimited number of criteria and the applicable jurisdictions that meet the combined criteria will be displayed in the table below.
- Using the Explore tab, you can isolate a single criterion and the applicable jurisdictions will appear in the table below.

Profiles Display
The Profiles display presents the results of the criteria selected in a text-based format for each applicable jurisdiction. Using the Filter tab, jurisdictions that meet the criteria selected will display. Using the Explore tab, jurisdictions that meet the criterion selected will display. If no criteria are selected, the full profiles for each jurisdiction will appear under both Filter and Explore.

Profile Legend
Within each Profile box, above the questions and answers, there are additional options and information useful in exploring the law:

<table>
<thead>
<tr>
<th>§§</th>
<th>Toggle Legal Text – Selecting this option will show all the legal text used to answer questions for this jurisdiction.</th>
</tr>
</thead>
<tbody>
<tr>
<td>≡</td>
<td>Toggle Full Place Profile – Selecting this option will show all questions and answers for this jurisdiction, regardless of what was selected using the Filter or Explore tabs.</td>
</tr>
<tr>
<td>✊</td>
<td>Toggle Size – Selecting this option will make the profile larger, but will not change the information displayed.</td>
</tr>
</tbody>
</table>

Map and Profile Legend
There are a few symbols to be aware of in both Map and Profiles display modes:
DATASET RESOURCES
Each dataset homepage includes the following resources available for download:

- **Data**: The Data file exports in CSV. format and may contain two tabs. The “Statistical Data” tab contains the legal variables coded in the dataset, displayed as values defined in the accompanying Codebook. The “Summary Data” tab contains the legal variables coded in the dataset in text form, as well as the accompanying citations and any caution notes that may be included. Note: if there is only one tab available for download it will be the “Statistical Data” as described above.

- **Codebook**: The Codebook defines all of the coded variables in the dataset. The Codebook lists the question, question type, variable name, variable value and variable label. The Codebook should be used in conjunction with the Statistical Data extract.

- **Research Protocol**: The Research Protocol is a comprehensive document that outlines the entire methodology of the project, including the scope, inclusion and exclusion criteria, data collection methods, definitions, coding scheme decisions, as well as the quality control process.

*This collection of laws does not provide legal advice nor does it address enforcement of laws, administrative policies, case law, or any other sources of law. Should you have a specific question about these laws in your jurisdiction, please contact an attorney in your jurisdiction.*
