Some states have laws which mandate that abortions after a specified gestational age be performed in a hospital. This dataset is longitudinal, displaying laws in effect from August 1, 2016 to December 1, 2019. Additional maps and tables are available by visiting www.lawatlas.org.

### Hospitalization Requirements

In total, 15 states have hospitalization requirements with only one state (DE) removing this requirement since August 1, 2016.

Jurisdictions: AK, CT, ID, KY, MA, MO, NJ, NY, NC, ND, OK, PA, SD, TN, WI

### Any Method of Abortion

Hospitalization requirements are required for any method of abortion in 15 states, a decrease from 17 (DE and NY having ended the requirement) states in 2017.

Jurisdictions: AK, CT, ID, KY, MA, MO, NJ, NY, NC, ND, OK, PA, SD, TN, WI

### Court Decisions or Attorney General Opinion

A court decision or Attorney General opinion has limited ten states’ hospitalization requirements.

Jurisdictions: AK, ID, KY, MA, ND, OK, PA, TN, VA, WI
